We can provide services in many different ways with little or no cost to yourselves, selling your event, coach trip, course or show to your public.

What is the biggest hassle you face with your events?

Not knowing how many people are attending and waiting nervously until the doors open to find you have no one there - having to sell tickets, and give out your telephone number?

Then we can help, AdvanceTickets provides a range of services to take the hassle out of your event by either:

- **Pre Sales Service** - Selling tickets through online, telephone, postal and in person bookings through ticket agents and managed admission services, we will then hand over the pre sales lists to yourselves for admission purposes and provide tickets for you to do your own door sales.
- **Full Service** - Providing a full Box Office service selling tickets through online, telephone, postal and in person bookings through ticket agents and managed admission services.
- Tickets are emailed or sent to clients and they are then scanned in ensuring one admission per ticket. We run a managed admission service where we provide staff to run the front of house at your event leaving you free to concentrate on the production or event concerned.

There are a variety of ways that these services can be provided including booking fees by a ticket or transaction charge paid by either the customer or client meaning that the provision of the service could cost you nothing.
